Price upon request

# ROHAM SHAMEKH

## Biography

Roham Shamekh is a leading figure among today's generation of crossover artist-designers. His radical voice challenges conventions, blurring the boundaries between art, design, and architecture, while his transgressive creations channel the evolving hybridity of contemporary creativity. Based in Dubai, Shamekh leads a radical experimental studio at the intersection of collectible design, experimental arts, and soulful living. Exploring themes of transformation, intentionality, and manifestation, his radical sculptural mobilier is never simply for sitting—it is for reflecting, pausing, and reconnecting with self.
